

this is test handlebar pdf

ankit

```
use strict;

let _ = require('lodash');
let helper = require('./helper.js');
let helper2 = require('./helper2.js');
let helpers = require('./helpers.js');
let config = require('../config.js');
let source = require('fs').readFileSync(__dirname + '/../index.html', 'utf8');
let template = helpers.compile(source);
let pdf = require('html-pdf');
```
