

this is test handlebar pdf

ankit

```
'use strict';

let _ = require('lodash');
let helper = require('./helper.js');
let AcReport = require('mongoose').model('ACReports');
let Handlebars = require('handlebars');
let config = require('../config/vars.js');
let source = require('fs').readFileSync(__dirname + '/../views/
    print.handlebars', 'utf8');

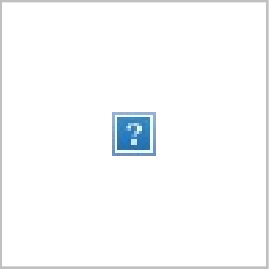

let template = Handlebars.compile(source);
let pdf = require('html-pdf');
```

```
'use strict';

let _ = require('lodash');
let helper = require('./helper.js');
let AcReport = require('mongoose').model('ACReports');
let Handlebars = require('handlebars');
let config = require('../config/vars.js');
let source = require('fs').readFileSync(__dirname + '/../views/
    print.handlebars', 'utf8');

let template = Handlebars.compile(source);
let pdf = require('html-pdf');
```
